PPO USA to Lease the PPO USA Medical Network

Lee's Summit, MO – PPO USA, a division of Government Employees Hospital Association, Inc. (GEHA) announced today that it is making available for lease the PPO USA medical network. GEHA, the third largest insurer of federal employees, has offered this network to government employees, retirees and their dependents for 7 years. The PPO USA medical network provides access to over 1,200 hospitals, 110,000 physicians and 5,000 facilities in 20 states.

PPO USA now offers access to the PPO USA medical network to third party administrators, insurance companies, self-funded and self-administered employers, and health and welfare funds. The PPO USA medical network is one of the largest networks in the country for rural and less-populated geographic areas.

“Since PPO USA’s inception in 1997, we have learned a lot about what clients and members expect from a health care network,” said PPO USA Services’ President, Joe Witkowski. “We are committed to providing network solutions for health care needs. Our current products include national dental, vision and hearing networks. With the addition of the medical network PPO USA is truly a health care solutions company.”

The PPO USA medical network has received Health Network Accreditation from URAC, a Washington, DC-based health care accrediting organization that establishes quality standards for the health care industry. URAC’s Health Network Accreditation is the premier accreditation program for preferred provider organizations (PPOs).

For information on joining the PPO USA medical network, please visit www.ppousanetwork.com.
